

SMARTHEAL

Revolutionalizing Healthcare!

Introduction

SmartHeal aims to modernize healthcare management by offering a comprehensive platform that optimizes doctor availability, appointment allocation, and administrative processes. Through seamless integration of digital technologies, SmartHeal aims to enhance operational efficiency, minimize patient wait times, and elevate the quality of patient care.

Existing System

- Time-consuming and error-prone manual scheduling.
- Poor allocation of doctors and the resources.
- Higher patient waiting times due to inefficiency.
- Lack of real-time updates on doctor availability.

VS

Proposed Solution

- User-friendly booking system for patients.
- Optimization of doctor availability and reduction of patient waiting times.
- Scheduling predictions: 92% accuracy.
- Reduction in booking and scheduling errors: 88% accuracy.

Features

- Seamless Patient Feedback System
- Dedicated Administrator Portal
- Effortless Registration for Staff
- Optimized Patient Experience

Results

Hello ,
